

What We Believe

We believe in the value of every woman, man, and child.

We believe every woman is capable of making her own well-informed pregnancy decision, and we want to help empower her to do so.

We believe information, compassion, and practical support help alleviate many of the challenges encountered with an unexpected pregnancy.

We believe every person is worthy of respect and care – regardless of their lifestyle, faith background, or pregnancy decision.

We believe that many women and men hurting from an abortion loss need a safe place to grieve and heal, and pregnancy care centres provide this.

We believe that having a healthy mindset and understanding healthy relationships and intimacy is important.

We are a faith-based Christian organization.
